

The rules that prohibit a media company from owning both a newspaper and a TV station in the same geographic area should be enforced!! Under no circumstances should they be repealed. The American Public, has a right to get a balanced view. A single company controlling all the mainstream information is just like communist countries where there is only the "state-news". The FCC is supposed to work for the people, not for the subjugation of the people. I think the FCC has lost touch with it's primary purpose.

I think repealing this minimal protection would encourage (and justifiably) many "illegal" radio, TV sites.

The current law must be enforced. The companies breaking the law, should not be rewarded by this move to increase their influence and profit at our expense. Persons in the FCC, who do not enforce the current laws should be jailed and removed from what was once a respected organization (FCC).

Thank You for your time.

Sincerely,

Michael E. Lebell
